

Jens-Erik Mai

Professor

University of Copenhagen

Royal School of Library and Information Science

Birketinget 6 • 2300 Copenhagen • Denmark

phone +45 3258 6066 • fax +45 3284 0201

www.jenserikmai.info • jemai@hum.ku.dk

Academic appointments

Royal School of Library and Information Science, University of Copenhagen, Denmark

Professor, 2012 –

[RSLIS merged with UCPH per April 1, 2013]

Faculty of Information, University of Toronto, Toronto, ON, Canada

Associate Professor [tenured], 2006-2012

Vice Dean, 2006-2009

Acting Dean, Fall 2008

Information School, University of Washington, Seattle, WA, USA

Assistant Professor, 2000-2006

[tenured and promoted to Associate Professor per July 1, 2006]

Co-Director, Center for Human-Information Interaction, 2003-2006

Royal School of Library and Information Science, Copenhagen, Denmark

Lecturer, 1996-2000

Education

Ph.D., Library and Information Science, 2000

School of Information, University of Texas at Austin, USA

Master of Library and Information Science, 1994

Royal School of Library and Information Science, Denmark

Librarian, RSL. (Bachelor degree in LIS), 1992

Royal School of Library and Information Science, Denmark

Scholarship

Journal papers

Teaching

University of Copenhagen

Knowledge Organization (was previously: *Information Organizing Processes*). Required course that provides an introduction to the conceptual foundation for organizing information and materials. The course aims to provide students with a solid grasp of the theoretical foundation of knowledge organization, a sense of the diversity in approaches and systems, and an appreciation for the conceptual foundation of knowledge organization. MA program 2014, 2016.

Vidensorganisation (Knowledge Organization). Required course that introduces students to basic concepts, theories, and methods in knowledge organization. The course provides students with i) an understanding of categories' interdependence on language, culture,

and cognition, ii) an understanding of different systems for the organization of information, and iii) skills in the design of systems for the organization of information to specific contexts and users. BA program. 2015, 2016.

Information Ethics: Privacy and Surveillance. Elective course that explores conceptual, theoretical and practical consequences of the rise of surveillance societies and the changed state of privacy. The course introduces key concepts and frameworks that allow analysis and interpretation of surveillance and privacy situations and actions in a rigorous manner and from an ethical perspective. MA program. 2014, 2015, 2017.

Vidensmedier (Knowledge Media). Required survey course on major media theories with a focus on use of media for the purpose of communication, acquisition, preservation, and development of information, knowledge and culture in society. BA program. 2012, 2013, 2014.

Information and Cultural Studies' Theories and Traditions. Required course that introduces, explores, and examines the theoretical traditions that constitute the foundation of information and cultural studies. MA program. 2013.

Information Ethics. Elective course that provides an overview of moral theories and their application to various ethical issues – and applies these theories to ethical dilemmas that most commonly confront information professionals. MA program. 2012.

University of Toronto

INF 1002: *Representation, Organization, Classification and Meaning-Making*. Core survey course on epistemological and ontological issues in the use of knowledge and information in human activities. MI program. 2009, 2011, 2012.

INF 1320: *Introduction to Bibliographic Control*. Introductory survey course to key issues in knowledge organization theory and practice. MI program. 2008, 2010.

INF 2142: *Theories of Classification and Knowledge Organization*. Historical and comparative analysis of theories, principles and methods of classification and of knowledge organization. MI program. 2009, 2010.

INF 2144: *Subject Approach to Information*. Examination of approaches, techniques, and methods for representing subject matter of documents and designing controlled vocabularies. MI program. 2007.

INF 3001: *Research in Information: Foundations*. An introduction to, exploration of, and examination of the fundamental intellectual landscape of information research. PhD program. 2011.

University of Washington

INSC 501: *Theoretical Foundations of Information Science*. In-depth exploration of the philosophical, theoretical, methodological, and historical foundation of Information Science and the study of information. PhD program. 2003-2006.

LIS 530: *Organization of Information and Resources*. Introductory survey course to key issues in knowledge organization theory and practice. MLIS program. 2000-2002.

LIS 535: *Classification Theory*. Examination of classificatory principles from bibliographic, philosophical, socio-cognitive, and linguistic perspectives. MLIS program. 2002-2005.

LIS 536: *Indexing and Abstracting*. Examination of approaches, techniques, and methods for representing subject matter of documents. MLIS program. 2001-2003, 2005, & 2006.

LIS 537: *Construction of Indexing Languages*. Design, construction, evaluation, and maintenance of controlled indexing languages, including studies of how users are integrated into the design process. MLIS program. 2001, 2002, & 2005.
